

# REVOLUTIONARY DUB VIBRATIONS

**PRESS RELEASE**  
**NUMBER ONE**

## "All killas, no fillas"

With the aim of diffusing (first and foremost) **up and coming "overground" reggae and dub artists**, who share a common aim in consciousness along with a deep love of reggae, [Revolutionary Dub Vibrations](#) is proud to announce a series of compilations featuring unreleased tracks from some of the best acts out there on the web, as well as several well established ones.

Dub Vibrations is a project run by the [Revolutionary Dub Gatherers](#) OUTERNATIONAL COLLECTIVE : a group of people with **conscious Roots and Dubwise** in mind. We have been developing a series of Reggae Dub Roots events in several countries throughout the years, always carrying the good vibes of the main participants as well as bringing together a whole community universally.

Along with the release of this series of compilations, under the Creative Commons License, we will also focus in doing our best and using all our joint contacts within the music industry, to promote them and their works, to the best of our abilities.

To access the FREE downloads of our releases, please visit <http://dubvibrations.com/> , and also our networking website for the label <http://dubvibrations.ning.com> , where you can reason and meet the artists directly as well as share the vibes, feelings and thoughts in the [LABEL's forum](#).

***"As we extend the hand of universal brotherhood to all, without regard to race or colour, so we condemn any social or political order which distinguishes among God's children on this most specious of grounds."***

**HIM Emperor Haile Sellassie I** , in November 02/1966

Along with the press release of the Label, we also want to announce the release of our first compilation, by the name of **"Revolutionary Dub Vibrations - CHAPTER ONE" !** Following the motto that we have adopted as our main philosophy, when it comes to select the tracks that will eventually form our releases ( be it in the form of a compilation or a whole album of a single artist)- "All Killas, No Fillas", this first mark on the label will definitely bring a new perspective to the dub sounds being played in the main soundsystems and clubs around the world ! From the first track to the last, the beats and vibes are all top notch; we will take no responsibility for any **tendinitis** resulting of the feet stomping uncontrollably, or even any **reggaemyllitys** neither !
